## The Journey Westward

Members of the First Contingent Started From Halifax Last Night.

Wild Scenes of Enthusiasm at St. John When Men Arrived There.

Illness of Miss Roberts Will Delay the Return of Commander-in-Chief.

(Associated Press.)

Halifax, Nov. 2.—The scenes of enthusiasm which attended the landing of a part of the first contingent from South Africa yesterday morning were followed by wild revels at night.

A monster illuminated parade of military and naval battalions, firemen, fraternal and athletic organizations and societies, was witnessed by over 70,000 people. The city was a general blaze of electricity and fireworks, and the din of explosions was deafening. Transparencies of beautiful designs and colors were generally displayed. Some excitement was caused by one of the arches catching on fire.

The troops left here by special train shortly after midnight.

Moncton, N. B., Nov. 2.—The returning Transvaal contingent left here by the I. C. R. at 8 a. m.

Scenes at St. John.

St. John, Nov. 2.—The train with the returning members of the first Canadian contingent arrived here at 12.30 to-day. Thousands of citizens were on the streets to give the heroes a warm welcome.

As evidence of the popular enthusiasm of the people, every public business and residence in every quarter of the city were decorated with bunting and appropriate mottoes. After an address of welcome, an immense procession, representing many trades and societies, formed and paraded the principal streets. To-night another procession will be held in honor of the returning heroes.

Departure Delayed.

London, Nov. 1.—A dispatch to the Evening Standard says that Lord Roberts, who was scheduled to leave South Africa on November 15th, has postponed his departure, owing to his daughter suffering from enteric fever at Pretoria.

RETURNED BY ACCLAMATION.

(Special to the Times.)

Ottawa, Nov. 2.—John Charlton has been returned by acclamation. His opponent has withdrawn.

## Another Convert

Mr. E. W. Rathbun, a Leading Canadian Manufacturer, Supports Government.

He Gives His Reasons Why He Favors Sir Wilfrid Laurier.

How the Trade of Canada Is Increasing by Leaps and Bounds.

(Special to the Times.)

Ottawa, Nov. 2.—E. W. Rathbun, head of the big firm of Rathbun & Co., of Deseronto, who made the town, has issued a lengthy pamphlet to his business associates and friends in support of the Laurier government. Mr. Rathbun, who was a supporter of Sir John Macdonald, writes as follows: "The work accomplished during his first term of Premiership gives Sir Wilfrid, in far-seeing, prudent and wise statesmanship, the first place in all the colonies of Britain. We have no one who can do better."

Trade Returns.

Canada's trade is still booming. Statistics just published for the quarter ended September 30th, 1900, show an increase of \$9,582,632, and an increase over the same period of the fiscal year 1899-00, which was the last year of the Conservative regime, of \$43,432,440.

Exports for the quarter are three and a half millions in excess of the same quarter of 1899, and twenty-four millions in excess of 1895.

For the month of September, 1900, the exports of Canadian produce were four and three-quarter millions more than the same quarter of 1899.

The total trade for September, 1900, was \$6,700,658 over that of September, 1899.

## The Carlist Rising

Several Men Have Been Killed in Fights With Spanish Soldiers.

One Band of Insurgents Dispersed—Testing the Fidelity of Generals.

(Associated Press.)

New York, Nov. 2.—The first band of Carlists which appeared at Badajona, 40 men strong, has been dispersed, says a dispatch to the Herald, from Barcelona. That in the neighborhood of Igualada, which also consisted of 40 men, had an engagement with the civil guard, of whom two were wounded, one mortally. In an engagement between a few "Partides" in the environs of Berga, in all about 100 men and their vanguards of Moxes Icaudre, two insurgents were killed. Troops, both cavalry and infantry, are pursuing them.

The government follows the Carlist movement with the greatest attention, says a dispatch from Madrid. In military circles the only importance that is attached to the rising is that it may be a kind of test of the fidelity of certain generals.

To Suppress Carlist.

Madrid, Nov. 2.—In spite of the fact that the Carlist uprising is officially declared to be ended, a decree has been promulgated suspending the constitutional guarantees throughout Spain and empowering the authorities to eradicate Carlist.

NORWEGIAN MINISTERS RESIGN.

(Associated Press.)

Christiania, Norway, Nov. 2.—It is announced that councillors of state Lech, Holst and Thilsson, have handed in their resignations to Prince Regent Gustav.

The ministry of finance has been offered to Birzonmaster Arcander, who declined the honor. Counsellor Konow becomes minister of agriculture.

## Pursuing The Boxers

Force of Allies Punish Inhabitants Around Tien Tsin and Peking.

Many Chinese Killed in a Fight With French-Missionaries Rescued.

United States Wants the Empress Dowager Kept Away From Capital.

(Associated Press.)

Paris, Nov. 2.—A dispatch to the Havas agency from Peking, dated Oct. 31st, says: "The foreign ministers continued to-day the discussion of the proposals to be presented to the Chinese. The French proposals were accepted. Additional specifications will be discussed on Monday. On account of the necessity for thorough accord between the different cabinets, the final note will not be presented for several weeks."

"Gen. Voyron, commander-in-chief of the French troops in China, with the allies under his command, is purging the villages around Tien Tsin and Peking. Many alleys infested with Boxers have been destroyed and their inhabitants punished."

"A French column sent to Tuen rescued the missionaries there. Another French column met with resistance at Siet Chung. The enemy's losses were considerable. The village was burned."

"News received from Pao Ting Fu indicates a movement of French and German troops upon Si Lung, where the Imperial tombs are situated. It is rumored that the army of Yang Yu Kant has resolved to defend the place."

"As the result of inquiries made by the international commission under Gen. Bailiol, second in command of the French troops in China, the allies are convinced that the grand treasurer and the governor of Sang Fu and a Chinese colonel were instrumental in the murder of American and English."

Officials Sentenced to Death.

Pao Ting Fu, Oct. 23.—The commission of inquiry into the outrages on missionaries here has sentenced to death Tien Yang, the provincial judge; Wang Shung On, the military commandant, General Kiu, and two other officials. German and French troops will garrison at Pao Ting Fu for the winter.

The propositions are complete for destroying, on October 27th, the most venerated temple in the city.

Seized the Tombs.

Paris, Nov. 2.—A Havas agency dispatch from Peking, dated November 1st, says the French troops arrived at Siet Chung on October 28th, and occupied the Tomb of the Empress. The Germans, the Italians and the English arrived afterwards, and occupied the other Imperial tombs. No fighting is mentioned.

Empress Held Responsible.

Washington, Nov. 2.—It was stated in quarters well versed in Chinese affairs, that outside of the questions of indemnity, punishments, etc., now under negotiation at Peking, there were three vital and far reaching questions to be determined, viz:

1. The removal of the Empress Dowager, personally, and through the influence of her advisers from all participation in the Chinese government.
2. The creation of an indemnity fund, either by the payment of duties in gold, instead of depreciated silver, or at present, or else by doubling the present silver duties from 5 per cent. to 10 per cent. ad valorem.
3. The establishment of a minister of foreign affairs in place of the old and cumbersome system of the Tsung Li Yamen.

The demand for the retirement of the Empress Dowager is said to be the result from the conclusion, now generally accepted, that the Imperial government of China was responsible for the Boxer uprising. As the Empress Dowager was the ruling authority of the Imperial government during the uprising, the responsibility is brought home directly to her. It is deemed advisable, for that reason, that she should remain permanently away from Peking, and that her advisers also should be kept away from the seat of government.

The plan of doubling China's customs duties has arisen from the need of finding a source to pay war indemnities which the various powers demand, as China's present customs revenues are said to be already pledged to meet the interest and principal of Chinese loans.

WILL TAKE NO PART.

Nanaimo Trades and Labor Council to Keep Out of Politics.

Nanaimo, Nov. 1.—A well attended meeting of the Nanaimo Trades and Labor Council was held last evening. The main business consisted of an address from J. J. Deane, secretary to the Oriental commission, on the Chinese question. He was listened to with much interest.

A motion was made and seconded that the council endorse the candidature of Mr. Ralph Smith, but after a long and noisy discussion it was decided the council take no part whatever in politics.

## New York Sensation

**Confession by the Valet of a Dead New York Millionaire.**  
**In Which He Implicates a Lawyer—Tried to Commit Suicide.**

New York, Nov. 1.—The mysterious death of the wealthy William Marsh Rice at his Madison avenue apartments on September 23rd; the attempt of his New York attorney, Albert T. Patrick, to cash checks for large amounts, which were refused by one of the banks to cash the checks drawn on it; and the discovery by the bank officials that Rice was dead at the time the checks were presented; the subsequent claim by Patrick that Mr. Rice had made him the trustee of his estate, which amounts to anywhere from one to three millions; the charge of forgery, both as regards the checks and the will, placed against Patrick and Mr. Rice's valet, Charles Jones; the arrest of Patrick and Jones and their lodgings in jail, by the developments of today promise to make the most celebrated of the many crimes which the courts of this city have been called on to investigate.

The first incident in today's climax was the fact that Jones had been taken to the district attorney's office, and the rumor that he had made a confession to the authorities.

Before the public had time to learn if the report of a confession was true, came the more startling news that during the hours of the night Jones had, in his cell in the Tombs, attempted suicide by cutting his throat with a pen-knife given him by Attorney Patrick, also confined in the Tombs.

That portion of the confession which has to do with the last moments of Rice is the following, given out by the authorities as coming from Jones: Rice said: "I am very nervous, Mr. Patrick. I wish you would not trouble me; please go away." Patrick replied: "I have some news here, Mr. Rice, that will cure your nervousness." He produced a bottle and uncorked it. The contents smelled to me like very strong liniment. Then Patrick said to me: "Get me a towel and a sponge." I got him both. Then Patrick said: "Now you have to leave." I left and as I was leaving, Patrick said: "I'll remain here until Mr. Rice gets to sleep."

He closed the door behind me. I stood in the hall for a few minutes, and soon I heard Mr. Rice laugh. I thought this was queer, so I pushed open the door. I saw Mr. Rice lying on his back in bed. The towel that I had given Patrick was wrapped around the sponge in a cone shape. This cone was lying directly over Mr. Rice's eyes and nose. Patrick was pressing it down with his right hand. Patrick did not see me. After seeing what I did I went and lay on my bed. Mr. Rice grew very sick. Patrick said to me: "Go get a doctor, and I will be here for one. He pronounced Rice dead."

Attorney Patrick denies having furnished Jones the pen-knife, and he also denies the statement in the confession. Jones, after his suicidal attempt, was taken to the hospital, having been found by doctors having just been in time to save him from death through loss of blood. At 8 o'clock to-night the hospital surgeon said he was better, and the chances are that in a few days he will again be placed in the Tombs.

The coroner's investigation into the death of millionaire Rice, which was to have been held today, and which had previously been adjourned to await the report of the chemist who had examined portions of the remains for traces of poison, was again adjourned because of the new developments in the case.

**THE CARLISTS.**  
Government Refuses to Accept the Surrender of the Bergea Chief.

Montreal, Nov. 1.—The latest news of the Carlist movement is more favorable to the government. It is asserted that the chief of the Bergea band has offered to surrender if he is pardoned, but it is added the government has decided to act vigorously and pardon no one.

**Very Numerous.**  
Paris, Nov. 1.—The Times publishes a dispatch from Madrid which says the military authorities of Barcelona are censoring all the local papers, that all information respecting the Carlists is prohibited, and that nothing is allowed to be telegraphed or telephoned except officially bulletins.

The Madrid correspondent adds: "It is now certain that the bands of Carlists are more numerous than at first announced. There are two bands, numbering 800 men each, and the movement is well organized, but premature. The Liberal and Republican press declare the vitality of the Carlists is due to the freedom allowed religious orders. The lower clergy are implicated in the uprising, which is strengthened by the industrial crisis in Catalonia."

## BRITISH MINISTRY.

**Mr. Geo. Wyndham May Be Next Chief Secretary of Ireland.**

London, Nov. 1.—The new cabinet appointments do not excite enthusiasm, but, with the exception of that of Lord Lansdowne, as foreign minister, they are generally approved.

Mr. Ritchie, home secretary, is regarded as an excellent choice. The appointment of Lord Selborne, his son-in-law, to the admiralty, challenges the most criticism. The Earl has a good reputation, but it is felt that a more distinguished man should have been appointed to such an important position.

Among the most probable new appointments is that of Mr. George Wyndham, who was parliamentary under-secretary of state for war, to succeed Mr. Gerald Balfour as chief secretary for Ireland.

The Daily Telegraph and the Daily Mail express themselves satisfied. The other papers are dissatisfied.

The Standard declares that the cabinet is not strengthened by the changes, in view of the loss of Lord Salisbury's services to the foreign office.

The Times remarks: "It would be idle to pretend that the public demand for a strong administration of national defence will be satisfied by the appointments made. It is well, however, to face the fact that the country does not appear at the moment to possess administrative powers who have given proof of the somewhat uncommon abilities required in ideal chiefs of our naval and military organizations. We must, therefore, be contented with untried men, hoping that they possess latent energies equal to the task ahead."

## GUARDING THE KING.

Rome, Nov. 1.—The arrival here today of King Victor Emmanuel and Queen Helena was marked by an imposing military escort which surprised the Romans who were not in the habit of seeing such an array of troops under the late King Humbert's regime. It is understood that the exceptional precautions taken were at the King's own request, and in order to prevent the possibility of an attempt upon his life.

## CLOSED THE WORKS.

New York, Nov. 1.—Because his son Walter is in jail charged with the murder of Jennie Rosschier, the Patterson mill hand, James McAllister has shut down his silk plant in that city. All the employees have been laid off, and the works closed. McAllister started the mill about six years ago to give his son a chance to succeed in business.

## A GOOD STOMACH.

Is essential to health and happiness, but is the liver that is deranged, and causes indigestion, headache and irregular action of the bowels. Dr. Chase's Kidney-Liver Pills regulate the liver, kidneys and bowels, and by their direct action on these organs, they promptly and lasting cure of biliousness, dyspepsia, headache and all kidney ailments. One pill a dose, 25 cents a box, at all dealers.

## A FARMER'S DEATH.

Wyoming, Oct. 31.—The body of John Cline, drifter and farmer, was found dead under his buggy in a ditch near here yesterday morning. The jury have returned a verdict that deceased came to death by strangulation, having driven over the side of the ditch during the night and fallen with his neck against the dashboard.

## It's Time Wasted

And strength wasted, to try to push back the rising tide of a broom. It's just as good to waste time and a far more serious waste of strength to try to push back the rising tide of disease with the "nervines," "compounds" and "nerve foods," which simply drug the nerves into a drunken stupor. They make you feel good? So does whisky, while the feeling lasts, but the reaction is dangerous and deadly. Dr. Pierce's Golden Medical Discovery is a temperance medicine. It contains no alcohol, opium, cocaine or other narcotic. It strengthens the body by purifying the blood and increasing the supply of that vital fluid. It heals diseases of the stomach and organs of digestion and nutrition and thus removes the obstacles to a perfect nourishment of the whole body.

"Six years ago my stomach and heart troubled me so much I had to do something, as the doctors could not help me," writes Mrs. S. A. Knapp of San Jose, California. "I went to San Francisco and had treatment for catarrh of the stomach and was better for some time, then it came back. I then used Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' These medicines cured my stomach. I do not have the pain and indigestion as I did. It is very hard for me to eat, and I am now taking your valuable medicine. I recommend it to all the sufferers whom I meet."

Dr. Pierce's Pleasant Pellets strengthen and stimulate the liver.

## Took No Prisoners

**German Soldiers Shot or Sabred Chinese Who Fell Into Their Hands.**

**Seventy-Four Natives Killed For the Murder of a Patrolman.**

Berlin, Nov. 1.—Very little news from China is published here, and the inference is that German censorship over such information is very strict. Letters from private in China begin to find their way into the social democrat papers, showing that the German troops give no quarter. The Bremen Burger Zeitung publishes a letter from a soldier in Fekin, who said he witnessed the following scene: Sixty-eight captives, some of them not yet adults, were tied together by their pig-tails, beaten bloody by the Germans, compelled to dig their own graves, and then shot en masse.

The Hallesche Volks Zeitung prints a communication from Pekin, in which the writer says: "No prisoners are taken. All are shot, or sabred to save ammunition. On Sunday afternoon we had to bayonet 74 prisoners. They had killed one of our patrolmen. An entire battalion pursued them and captured 74 alive. It was cruel. It was indescribable."

The Post of this city semi-officially made the following announcement today: "As the third clause of the Anglo-German agreement is intended to operate in the event of one power acting in opposition to the principles laid down, it ceases to be important, all the powers accepting it."

## Powers and Agreement.

Washington, Nov. 1.—The alignment of the powers on the British-German agreement is now complete. Aside from Italy and Austria, whose adherence to the agreement was expected, owing to their political relations with Germany, Japan is the only one of the powers which has given unconditional assent to the agreement. As the matter now stands, five of the powers are united in the treaty of the agreement, viz., Great Britain, Germany, Italy, Austria and Japan; three of the powers—the United States, France and Russia—accept the clauses relating to the open door and the territorial integrity of China, but withhold assent on the third clause, as to future procedure in case any power seeks territory.

Neither the state department nor the Russian embassy has received information of the Russian answer, though the Associated Press in its London dispatches announces that the reply has been received at the British foreign office on October 30th, and unreservedly accepted the first two clauses. In regard to the third clause, Russia referred the two contracting parties to the Russian circular of April 15th, saying that she would modify her attitude according to circumstances.

## THE FRENCH REPLY.

Paris, Nov. 1.—The Politique Coloniale makes the following announcement: "The French ambassador to Great Britain, M. Paul Cambon, has received instructions to reply to the Anglo-German treaty that France adheres to the principles of the integrity of the Chinese empire and the open door, and that with regard to article three she reserves the right to act in such a manner as to safeguard her interests."

## IT DON'T PAY.

To buy drinks for the boys—it don't pay to buy drinks for yourself. It will pay to quit, but the trouble has been to do this. My Vegetarianism will absolutely remove all desire for liquor in a couple of days, so you can quit without any self-denial, and nobody need know you are taking medicine. You'll save money and gain in health and self-respect from the start. Medicine is perfectly harmless, is pleasant to taste, and produces good appetite, refreshing sleep, steady nerves, and does not interfere with business duties. Full particulars sealed. Address Mr. J. G. Dixon, 81 Wilkes St., Toronto, Ont.

Campbell v. Redgrave; a motion by G. A. S. Potts.

President McKinley has decided to remain in Canton to receive the news of the election next Tuesday night. Arrangements are being made to furnish the president and his friends prompt and complete reports. Besides telegraph and press wires, a telephone service will be provided.

## VILLAGE WIPED OUT.

**Catholic Mission in China Completely Destroyed by Boxers.**

Communication with the interior of China, as may be imagined, is slow. Consequently when the steamer Queen Adelaide arrived from the Orient last evening, she brought address of important events in China, which have not been heretofore reported. One of these was the destruction of an entire Catholic village and the slaughter of all but a comparatively few of its inhabitants. About fifty miles northeast of China, the capital of the province, in the southwest corner of Wutung Prefecture, in the district of Shang Ho, is a village Hsiao Chiang Chia, the population of which is almost entirely Catholic. This Christian community, like so many others in the same prefecture, is one of the strongholds of Catholicism in the province. Unfortunately the village had a feud with the neighboring village of Hsiao Chia of long standing. Hsiao Chia has lately become prominent as a Boxer centre. In complicity with their fellow Boxers of Yu Cheng Hsien, called in especially for the occasion, the Hsiao Chia Boxers, with a total force, it is said, of 300 men, set out one day to settle all old scores. They surrounded the Christian village which had a mud wall, and were resisted with such good effect that they left ten dead as the result of the first day's skirmish. During the succeeding night, however, the village was completely destroyed, the natural defenders of the place, in what seems a heartless fashion, leaving their wives and children defenceless, escaped to the number of 10 or 20. The next day the invaders broke in and exterminated the entire Christian community to the number of 108 souls. But one woman, it is said, escaped slaughter. On hearing of the trouble the Shanghai magistrate appealed to Gov. Yuan for troops. They came to the number of 100 or more, and in conjunction with men furnished by the magistrate attacked the Boxers assembled at a temple in the vicinity of a second Catholic village they were about to attack, and killed over 70 of them, capturing a number also. Needless to say it is now quiet in that region.

Inquiry at H. B. M. Consulate-General, at Shanghai, elicited confirmatory news of the murders of eighteen more Protestant missionaries, ten at Tantung, six at Wenhsien and two on the Yellow river. The party killed at Wenhsien is said to have been hiding for some weeks in the hills, and is supposed to have emerged only after receipt of news of the relief of Pekin, the murders having taken place so recently as the 20th of August. Sixty more murders in all have been reported from Shansi, and the total number of missionaries murdered in that province alone now amounts, including children, to 144.

The export of arms from foreign countries having been prohibited and the Chinese regiments being very much in need of them, Tang has fallen upon the expedient of manufacturing blunderbusses of the oldest fashion, and long match-lock muskets, each to be carried by two men, for the use of the native armies. Patterns of the same have been submitted to the acting viceroy Tak Sow, who gladly approved of them, and ordered a large quantity to be made as quickly as possible.

## TOT CAUSES NIGHT ALARM.

"One night my brother's baby was taken with cramps," writes Mrs. J. C. Sander, of Crittenden, Ky. "It seemed it would strangle before we could get a doctor, so we gave it Dr. King's New Discovery, which gave quick relief and permanently cured it. We always keep it in the house to protect our children from Croup and Whooping Cough. It cured me of a chronic bronchial trouble that no other remedy would relieve." Infants for Coughs, Colds, Throat and Lung troubles. 50c. and \$1.00. Trial bottles free at F. W. Farwell & Co.'s.

## VICTORIA'S EXHIBITION.

Arrangements Progressing for the Proposed Show Here Next Year.

Mayor Hayward presided last night at the meeting of the committee called to further the arrangements for the exhibition projected for this city next year. There was a good attendance of the members of the committee and the liveliest interest was manifested in the project.

It was decided that the exhibition should be named the Agricultural, Industrial and Mineral Association of British Columbia, and that the membership fee should be \$2 a year. A committee was appointed to solicit names for membership, and to report at another meeting which will be held on the 15th inst., at which a committee of management will be appointed.

The election of officers resulted in the following being appointed: President, Mayor Hayward; secretary, W. F. Best; and treasurer, E. C. Smith. W. H. Bullock, of Salt Spring Island, Chief Deasy, and Herbert Cuthbert were added to the committee.

## BRIGHT'S DISEASE

is the deadliest and most painful malady to which mankind is subject. Dodd's Kidney Pills will cure any case of Bright's Disease. They have never failed in one single case. They are the only remedy that can cure it, and they are the only remedy that can. There are imitations of Dodd's Kidney Pills—pill boxes named—B. V. (appellant); L. C. Rowse for the plaintiff; H. B. W. Alkman for the defendant; from the decision of Mr. Justice Martin.

## DODD'S KIDNEY PILLS

A meeting of the Cole Hill Gold, Silver & Copper Mining Co. will be held at Kaslo on December 3rd, for the purpose of passing the following resolutions:

First: "That the directors be authorized to enter into an agreement with the directors of this company and the B. C. Exploring Syndicate, Limited, be approved and confirmed; and that this company release of the whole or any portion of its assets, in accordance with the terms of such agreement."

Secondly: "That the directors be authorized to pay to The British and Canadian Gold and Silver Mines, Limited, the sum of \$5,000, being an amount claimed by the last named company, having been expended for the benefit for this company, and for developing this company's property, or such other sum as may be found by the directors of this company to have been expended by The British and Canadian Gold and Silver Mines, Limited, for the benefit of this company."

A special general meeting of shareholders of the Georgia Gold Mining Company, Limited, will be held at the company's office, 1 Bank of B. C. Chambers, Victoria, on Saturday, 1st December, at 3 o'clock p. m., for the purpose of considering and passing resolutions relative to the disposal of the whole or any portion of the assets and privileges of the company, and for such other business as may be deemed necessary.

## GENERAL BOOTH

Will Take Charge of Salvation Army in United States for Six Months.

New York, Nov. 1.—General Wm. Booth, commander-in-chief of the Salvation Army, is coming here next September to take the control of the Salvation Army in the United States for at least six months. This announcement was made last night by Commander Booth-Tucker, who said he had invited the General to assist in the solution of several problems, one of which was that of organizing and maintaining the farm colonies which the Army was establishing in some of the states.

## To Extend Boundaries

New Zealanders Desirous of Including Cook Islands in Their Colony.

Improvement in San Francisco Mail Service Proposed—Floods in Honolulu.

According to advices received from Australia by the B. M. S. Aorangi yesterday, a movement is on foot to extend the boundaries of New Zealand so as to include the Cook group of islands. These consist of the Atiu, Mangaia, Raratonga, Aitutaki, Mitiaro, Mauke, Hervey (Manua), also the following islands: Palmerston (Avarua), Savage (Niu), Pukapuka (Tongareva), Rikaranga, Manihiki, and Fanning (Fanning).

The matter has been brought up in the House of Representatives in Wellington in the shape of a resolution moved by the Premier. New South Wales, however, is strongly opposing the project. In speaking in the House on the subject the Premier of the latter colony said: "In view of the representations made to him by a deputation of Sydney merchants, he at once took steps to lay before the Imperial authorities the objection of this colony to the annexation of the Cook group of islands by New Zealand. When it was remembered that the trade of New South Wales with the islands was valued at £750,000 a year, whilst that of New Zealand was valued at only £25,000, it would be seen that the matter was a serious one, he said, to the trading interests of New South Wales."

At a later stage Mr. Archibald Campbell directed attention to the fact that Queensland annexed the unoccupied portion of New Guinea her action was repudiated by Great Britain, and asked if the Premier could say whether in this instance to follow their usual policy of not recognizing the annexation of new territory by any of the Australian colonies without the sanction of Great Britain being first obtained.

The matter of annexing Fiji has also been introduced by the government.

Shortly before the Aorangi left Brisbane en route to Victoria the postmaster-general moved the following series of resolutions in the House of Representatives, New Zealand: 1. That authorities of the government enter into temporary agreement with Messrs. Speckles & Co. for the continuance of the San Francisco mail service, once every three weeks, in place of four-weekly, for a period not exceeding 12 months, from about November 21st, 1900. 2. That payment for the conveyance of mails from New Zealand to San Francisco shall be at the rate of 10s. 5d. per lb. for letters, 1s. per lb. for

books, packets, etc., and 6d. per lb. for newspapers. 3. The time between San Francisco and Auckland shall not exceed 16 days. No bonus shall be paid for early arrival, and penalties at the rate of 24 per hour shall be enforced only when the late delivery of mails exceeds 48 hours. 4. All mails tendered to the contractors at Auckland and San Francisco by the Postmaster-General of New Zealand shall be conveyed by contract vessels, and sufficient and secure accommodation shall be provided, and suitable accommodation and lighting shall be provided for the purpose of sorting mails on board. 5. Contract vessels and first-class accommodation shall be provided without charge for the mail agent and an assistant, or if required two assistants, and any agreement entered into between the Postmaster-General of New Zealand and Speckles & Co. shall, where applicable, follow the provisions of the agreement entered into with the Union Steamship Company of New Zealand on April 11th, 1899.

An interesting budget of news was received from Honolulu by the Aorangi. The heaviest rains and most damaging floods which have been experienced there since March 24th, 1898, occurred on the evening of October 16th. Within an hour there was a downfall of rain varying from 1.25 inches at the naval station at the edge of the harbor, to 8.15 inches at Lanakaha, about four and one-half miles up Nuuanu valley from the harbor. Within the scope of the storm every stream and water course coming down from the mountains became a torrent. Channels in which there has been no water for a year and a half became rivers in volume. In many of the down-town streets, particularly those running from Punchbowl to the harbor, the water at times was a rushing torrent a foot or more deep. These brought down immense quantities of silt and debris from the higher levels, which, as the torrent subsided, was deposited at the cross streets, burying the street car tracks in some places a foot to eighteen inches deep in mud. The bridges across Nuuanu stream were tried to their utmost, though all stood the strain. The water flowed over some of them more than a foot deep.

On October 20th the Republicans had the finest torchlight procession ever seen on the islands. Fully 500 men, a large part of them native Hawaiians, in uniform, marched through all the principal streets carrying torches and firing Roman candles. Almost the entire population of the city was out to see the procession.

The returns of the mines department on the gold yield of Queensland for September, 1900, show a total of 77,339 ozs., as compared with 83,034 ozs. for September last year. This decrease of 5,695 ozs. for the month is, however, counterbalanced by the great increase for the nine months ended September 29th. The yield during that period in 1899 was 685,824 ozs., whilst this year it was 739,470 ozs., being an increase of 53,646 ozs.

Just before the Aorangi left Brisbane a new case of plague was discovered, being the first reported in over a month.

## AS OTHERS SEE US.

Vancouver Visitors Surprised at the Growth and Progress of Victoria.

A Victoria gentleman, who returned the other day from Vancouver, was amused while in the Terminal City by being questioned regarding the "boom" which his Vancouver companion said he understood had reached Victoria. "Well, I could not understand a boom in Victoria," commented the Mainland man.

The residents of Vancouver, however, have been receiving a little light recently from one of their own number who has just returned from the Capital, and who has been impressed with the progress and solidity of this place. In an interview in a Vancouver paper, Prof. Odium gives his impressions of a trip to this place in the following terms:

"A trip to Victoria by the beautiful and commodious Islander, of the C. P. N. Co., is always pleasant. Apart from the comforts of that splendid steamer the journey from Vancouver through the Narrows, past the mouth of Howe Sound, with its lofty islands, past the mouth of the Fraser, with its town of canneries, and Ladner in the distance, on to and through Plummer's Pass, and through the Gulf of Georgia to the Capital, is most enjoyable and interesting."

"Visiting Victoria after a long absence impressed me in more ways than one. I had heard and read that Victoria is 'side-tracked' and 'dead.' In a vague sort of way I had a notion that this might be true. But after careful examination I can assure the World readers that the Capital is fully alive, and is a city of solidity, wealth and vigor. No, Victoria is not side-tracked and never can be. With an island 300 miles long and 50 miles wide, an island rich in forest, farming, fishing and mineral wealth, there is room for a city ten times the size of the present one. With railway connection to the West Coast of the Island, a long railway to Port Rupert or Port Hardy, with connection by a ferry with the Kootenays, and also with the roads of the north through Cariboo, Chilcotin, Cassiar, Atlin and Eastern Canada, there is a bright future for the capital city. The towns and villages of the Island of Vancouver, the coast and trans-oceanic shipping trade, the general trade of the whole province, and the vast Island and Mainland mining wealth are enough to ensure the success of our across-the-gulf rival."

"The business streets present a more solid appearance than in Vancouver. But the streets themselves are not as good nor so clean. The electric tram system and service cannot compare with that of Vancouver, but still are of a high order compared with some places I have visited. The people are a quiet, forceful, determined business set, and have accumulated much wealth. At present there are very few empty buildings; not enough for the best interests of all."

"I am inclined to think that next year's census will surprise a good many in relation to Victoria. Undoubtedly of late the population has increased very considerably, and perhaps the difference between the Terminal City and the Capital will not be very great. The parliament buildings are the most attractive and ornamental in Canada. Wonderfully well planned, suited to their purposes, very substantial and truly cheap compared with other large public structures in the East, they are a credit to the country. Routine work in the several departments goes along like clock work and equally as quietly. The museum, for its size, is one of the most creditable in Canada. In fact there are few towns of the size of Victoria, anywhere, that can make as good a showing. The curator and his assistants deserve the highest praise. Those wishing a pleasant two or three days' trip, with valuable information, should go via the Islander to the museum, at Victoria."

In the hope of stemming American and German competition, the leading iron manufacturers of Staffordshire and Worcestershire issued circulars this morning announcing a reduction in prices of 20 shillings per ton.

DECEIVED HUSBAND  
But He Seems to Like It.

"We used to buy our coffee from an agent of a coffee house in — who came once a month to take our order. When we would run out, we bought package coffee from a local grocer and 'hubby' would always raise more or less of a row until the coffee he was used to came along."

"One time I concluded to serve some Postum Food Coffee without his knowing it. 'Hubby' remarked that he was glad to know the regular coffee man had got along and he was very much pleased. He had not the slightest idea it was Postum and I let this run along for about two months, serving him Postum every day. A lady guest at our table remarked that she would like to know how I made coffee, as hers always had a bitter taste. I thought it was a good time to tell the truth, and remarked that I always took four heaping teaspoons of Postum Food Coffee — 'What?' yelled 'hubby.' 'What's that?' 'Yes, I take four heaping teaspoons of Postum to the pint of water.' ('Hubby' was still staring.) 'Let it stand on the stove until it really boils and then allow the actual boiling to continue thereafter for fifteen minutes.' You can imagine how he stared. Finally he remarked: 'Well, if the coffee I have been drinking for two months is Postum Food Coffee, that is the only kind we will have in the house hereafter.'"

"I was brought to try Postum, for I had so much trouble with my heart for four or five years, with fainting spells and so many times a day was compelled to sit down to keep from falling, could not go up and down cellar on account of dizziness and a sick feeling at my stomach, could not eat anything greasy."

"After a thorough examination by the doctor, I was told that I had catarrh of the stomach in the worst form and he forbade the use of either tea or coffee, so I started in on Postum, leaving off the old coffee entirely, as well as tea. I immediately began to get better, and now my trouble is entirely gone, and I am well in every respect and able to eat anything I want, without distress. I proved to my own satisfaction that coffee was the cause of my trouble." Mrs. F. Shurtz, Sistersville, W. Va.

## Refunded The Money

The Young Lady Collectors Were Placed in Custody Yesterday Afternoon.

They Returned Unauthorized Collections and Were Allowed Their Liberty.

The rather meteoric tour of collection instituted during the past few days by a quartette of young ladies from Uncle Sam's domain, came to a sudden termination yesterday afternoon, when the law placed its inexorable uncompromising hand upon them, and bade them cease. They had resumed collecting yesterday morning, but it is quite safe to surmise that, owing probably to the mantle of suspicion that had been cast around them by rumors as to their creditability, their route was not so successful as on the previous day.

Yesterday afternoon, when they returned to the Dominion hotel, the law, as represented by Detectives Palmer and Perdue, was ready to intervene. The two detectives were not alone in their vigil, for men of diverse occupations were gathered at the hotel with a different object in view from that which actuated the two Victoria secret service men. They wanted their money back, and determination was writ in unmistakable letters upon their countenances. They knew that they would be compelled to stand one of the most trying ordeals they had yet been called upon to bear, in the shape of inflexible, adamant resistance to the anticipated pleadings of the fair quartette.

These never came, however, for immediately upon returning from their day's labor—two of them in a hack—they were taken in charge by the two detectives. The strain on the latter must have been almost overwhelming, but their stern duty allowed them no alternative but to carry out its mandates, and the four young women were escorted to Chief Langley's office. All this was done under warrants issued after the meeting of the victims in the mayor's office at the city hall yesterday afternoon, as chronicled in these columns last evening.

With the exception of an hour occupied in negotiating a renest at the New England, they remained at the chief's office until 8 o'clock, when they were released on refunding to Mayor Hayward the sum of \$456.50. This represented the amount collected by them during the past couple of days, and was eloquent commentary on the industry of the quartette during this time. Yesterday afternoon, before their apprehension, two of them called at the Times office and explained that the concert would be given in the A. O. U. W. hall as announced. They pointed out that the

impression induced by the story published in the press was most unfavorable, and one which they were desirous of removing.

In response to questions from the chief of police and Mr. Bradburn, the city solicitor, they said that Misses Haines, Detweiler and Chase were professional canvassers, and were working under the direction of Mr. Greenleaf, in the interests of an Eastern concert company. They had been collecting and holding concerts for three years, but they were reticent when questioned as to the name of the company. One of the party, Miss Fleming, they pointed out, had no connection with the concert company. She was from San Francisco, where her parents, who have considerable wealth, reside at the Cliff house, on Sutter's Heights. Her association with the party commenced at the Sound, where, while on a pleasure trip, she decided to continue her tour with them. All their replies were giving with easy ingenueness, and they all expressed regret at what they considered a misunderstanding.

Last evening, it is understood, Mr. Greenleaf was communicated with by telegraph and asked for his advice. This gentleman did not remain very long in this fair city, and merely inaugurated the proceedings, after which he returned to the Seaside. Mr. Greenleaf explained that he would give readings in the concert from "The Merchant of Venice" or "The Lady of Lyons," and the other members of the company would do the rest. He is said to have stated that they had realized \$2,000 in Portland from collections and a series of concerts, while business was profitable in Seattle and other cities.

The bulk of the \$456.50 was in cash, only \$35 being in checks. While there is no proof that the Eastern concert company referred to has a real entity, there is also none to show that it is non-existent. The general impression, however, is that should such an organization be on the road, its method of making the business pay are decidedly unique. The success attending the collection tour of the quartette here also demonstrates the pungent fact that in selecting prepossessing and stylishly attired damsels, with soft dulcet voices to operate in advance, the management consists of individuals whose knowledge of human nature, whether in Victoria or elsewhere, is infallible.

The New York money market was easier on Wednesday on a relaxation in the demand, rather than in any additional supply. The heavy collections by the sub-treasury on account of internal revenue are offset by payments on account of Alaskan gold and by the expectation of further receipts of gold imports from Europe.

### IN A BAD WAY.

The Colonel says the Times is a liar, but then the records of the campaign prove that the Colonel can hardly be held responsible for what he says. He has been deserted by all his old friends with the exception of the large-hearted Harry, who has taken a vow, like unto that pledged to the immortal Wilkins by Mrs. Micawber, that he will never desert him in the days of his adversity. The Colonel has told the people, according to the reports of his remarks in the Conservative paper, that the duties on mining machinery are the same as in the happy days of old, that the impost on agricultural implements have not been changed, and that the tariff generally has only been reduced fourteen-hundredths of one per cent. His purpose evidently was to convince the people that the National Policy had produced the undeniable prosperity of the country. Now we shall not say that these statements were lies, but they were certainly incorrect. He also said that the duty on coal oil and that on binder twine had been decreased, and that prices had come up in consequence, arguing of course that the decrease in the duty had been the cause of the advance in price. As a matter of fact, according to the market reports in the Eastern papers coal oil is distinctly cheaper than it was in 1896, and to tell any sensible man that the entire abolition of the duty on twine, opening the markets of Canada to the competition of the world, is equivalent to telling him he is a fool. The people are aware that there has been a war in the Philippines and that but for the destruction of the crops which provide the raw material for binder twine prices would have been very much lower than they have been for the last few years. This is another matter about which lies have been told, and they have not been circulated by the Times.

Notwithstanding his previous assertions that the tariff has been reduced to some extent at least the Colonel maintains that taxation has been increased. He puts aside as beneath his notice the fact that the duties on British goods have been reduced one-third and sticks to his original contention that the Liberals have not attempted to decrease taxation, and that they should be condemned for it. Aside from the fact that it has been demonstrated beyond contradiction that the people of the city of Victoria alone will be relieved of between sixty and seventy thousand dollars in taxation by the British preference of one-third, we submit that the Colonel has by his own arguments proven that some one very closely akin to him has been sailing the bark of truth very close to the wind.

Colonel Prior further says that we have lied in regard to his course on the Yukon railway matter. We have said

that he was paired against the measure and that that was equivalent to voting against it. If the Colonel thinks we are wrong there all we have to say is that he takes a view of pairing which is quite unique. The member he was paired with would have voted for the bill if he had been released from his engagement by the member for Victoria. It was impossible for Colonel Prior to be in Ottawa at that time to speak in favor of and vote for a measure that was of such transcendent interest to Victoria, why did he not inform Mr. Laverge that he would release him from his pair and thus do his part to convince the Conservative senators of the true feeling in the West. He says he told Sir Charles Tupper privately that he would have voted for the bill if he had been in the House. Why was it necessary for him to keep his real sentiments secret? After giving due consideration to the various statements of Colonel Prior on this subject, we are convinced that the electors will on Wednesday express their opinion on the conduct of the late members for Victoria in at least played the most mainly part in boldly proclaiming the fact that under no circumstances could he have supported the bill. Colonel Prior has made no secret of the principles which guided him in the House. He had been sent there as a Conservative, and as such his chief purpose in political life was to bring discredit on the government regardless of the effect of such a course on the welfare of his constituents. He has lived up to his principles and the splendid isolation in which he finds himself on the eve of a general election is merely a premonitory symptom of what is going to befall him on Wednesday. Under the circumstances we must make due allowance for his irritation and bad temper.

of public contracts and spent in the constituencies on the orders of two Cabinet Ministers and the treasurer of the party say of it in his own pocket. He acted as agent of the party which is now marshalled under Sir Charles Tupper, and the culprit was shielded by Sir Mackenzie Bowell and his colleagues. A public loss of hundreds of thousands of dollars was caused by the Curran Briffle scandal or the Curran Bridge deal in 1893.

Public situations were sold in Northumberland County, Ont., by the Conservative member and his election committee. A sum of \$300,000 was spent in constructing a lock which was officially estimated to cost \$44,000, and which has never been used except by one boat. The contractor was a prominent party man, and immediately afterwards carried a seat for the government in the general election. A work on the St. Lawrence canals estimated to cost \$300,000, cost \$900,000, and even then the Minister of Railways and Canals, Mr. Hazen, stated in the House of Commons, in 1894, that the work was not used for the purpose intended, viz., navigation.

Frauds were detected in the inside Department of Railways and Canals, and evidence printed by order of Parliament. All these things were exposed by the Liberals when in opposition, and are on the official records of the Dominion. The electors will hesitate before they put these men back in charge of the public exchequer in place of men against whom not a single act of corruption has been proved.

**DRURY, RILEY AND THE MINT.**

**THEIR RECORD.**

The Colonel and his colleagues are fond of shouting corruption, in the apparent belief that if they cry loud enough and long enough peradventure some one may take them seriously. We have a little list of charges which have not only been made, but have been proven, against the party which these two gentlemen are so proud of their connection with. Here is their record:

An anti-British policy of protection, which taxed British goods higher than goods from the United States, and which they said, if it hurt British connection, then "so much the worse for British connection."

A policy that drove Canadians out of the country and let all our immigrants slip through our fingers so that the census of 1891 showed a depleted population, and compelled a reduction in the parliamentary representation.

Unparalleled corruption, costing Canada many millions of dollars, and compelling one Conservative after the other to retire from public life, either by way of resignation or the gall.

About \$1,500,000 were stolen from the public chest out of the total expenditure of \$1,800,000 on the St. Charles branch of the Intercolonial Railway, only 14 miles long. Sir Charles Tupper communicated with the contributors to campaign funds at Quebec through his nephew, Mr. Charles Tupper Hillson, who was a foreman on the Levis end of the road.

Between 1878 and 1891, during nearly the whole of which time Sir Charles Tupper was a member of the Cabinet, one firm of contractors received \$3,138,224 for which they did \$2,000,000 worth of work, including a fair profit. They expended in bribery and corruption \$170,447, according to entries in their own books. A man who had a "pull" on a colleague of Sir Charles Tupper's received \$187,000. A Cabinet Minister received at least \$10,000 for favors granted.

A parliamentary supporter and confidential agent of the Cabinet of which Sir Charles Tupper was a member received \$130,000. He owed up to receiving \$60,000, but an examination of the books showed the larger sum, which, it was said, was paid out to "carry the constituents."

By letting a contract for dredging at an exorbitant rate the Conservative government received back from the beneficiaries \$25,000 for the general election.

The firm of Larkin, Connolly & Co. paid the agent of the Cabinet \$22,000 for a certain graving dock contract, the profits on which were \$125,000.

For securing a cross-wall contract at Quebec for the political contractors the treasurer of the Conservative party in that district received \$25,000.

For the building of the Esquimalt dock \$207,168 were paid, over and above the amount of the tender. The contractors made \$241,000 profits, not including \$27,000 paid out in bribery and corruption and entered in the books as "donations."

An official list of expenditure in one general election campaign, 1887, showed that the sum of \$112,700 was raised out

of public contracts and spent in the constituencies on the orders of two Cabinet Ministers and the treasurer of the party say of it in his own pocket. He acted as agent of the party which is now marshalled under Sir Charles Tupper, and the culprit was shielded by Sir Mackenzie Bowell and his colleagues. A public loss of hundreds of thousands of dollars was caused by the Curran Briffle scandal or the Curran Bridge deal in 1893.

### PROGRESS OF VICTORIA.

The Colonist printed two very able articles this morning dealing with the present conditions in and the future prospects of Victoria. Our contemporary forgot to remind its readers that in order to keep Victoria on the narrow way to prosperity it is absolutely necessary that we should elect two supporters of the present government. We are asked to vote for Prior and Earle and secure the mint for Victoria. The Colonist would have his friends believe that the government will be defeated. He knows better. He knows that the Tupperes are the strongest men the Conservatives have in the Far Eastern provinces; and that their influence there now is insignificant compared with that of Blair and Fielding and Davies. He knows that they have no leader in the province of Quebec with the exception of the notorious Caron, and that he has foisted himself upon a constituency against its will after trying vainly in many places for a regular nomination. The Colonist and his leader have repudiated Pamphlet No. 6, but it is still being circulated from the Star office in Montreal by the thousand, and even more scandalous documents than it, without strengthening the cause of the Conservatives or weakening that of the Liberals. In Ontario matters are even worse. There the Conservative leaders are at open war with one another, and all appear to be against Tupper now they have discovered that he has no strength in any part of the country. The attempt to stir up enthusiasm by parading Hugh John around the country as the son of an illustrious father proved a fizzle, and it is settled that when Tupper retires after defeat on the 7th he will not be succeeded by the man from Manitoba. In the West the conditions are practically the same as in the East. In Winnipeg and Ligar the Conservatives have not put up candidates. Martin and Richardson, while holding the opinion that the reductions in the duties have not been as great as they considered justifiable, if elected over their straight Liberal and labor opponents are not likely to support the Conservatives, who say the National Policy shall be restored as soon as they attain power. In the Territories the prospects of the opposition are quite as bad, while in British Columbia the government have as good a chance of carrying the whole six seats as the Conservatives have of winning one.

The Colonist is only joking when he tells the people that his party are going to win. They are demoralized from one end of Canada to the other, and have no chance whatever of gaining a victory. Vancouver has already put in a claim for the mint, and she will elect a supporter of the government to second her demand. Victorians have no fault to find with that. We should do likewise. For reasons which it is not necessary for us to enter into at the present time Victoria has greater claims to this much-sought-after institution than our enterprising neighbor. We have the advantage of her also in that it is in our power to elect two members to present our case to the government, and this is an advantage which we should make the most of. If the people of Vancouver had the same chance would they neglect to make the most of it?

**Elect Earle and Prior and kill Victoria's chance of getting the mint.**

The Toronto Globe says: The Montreal Star some time ago urged that a change of leaders of the Conservative party was necessary. This may be, but it seems to us that the crying need of the Conservative party is a censor of campaign literature, and possibly a fool-killer for extreme cases. If Pamphlet No. 6 and the bogus Globe could have been suppressed it would have been worth a good deal to the Conservative

We desire to call the attention of Col. Prior to the fact that he has not been taking full advantage of his opportunities. The ex-member for Victoria said the removal of the duty on raw sugar put a mere million or two into the pockets of the people (the refiners were the people). Now Sir Charles has been making the statement that it was eleven millions. What a chance to accumulate a campaign fund! The Colonel has a fairly good imagination, but he is hardly possessed of the stretching powers necessary to become a leader of the great Conservative party.

H. Holgren, M.P.P., of Metchoin, who has voted Conservative since Confederation, has turned his back upon his former political friends and is working for the Liberal candidates. Where he is known there is no more popular man in British Columbia than "Honest Hans," and his defection has worked a revolution in districts which were formerly solidly Conservative. The Liberals will have a majority in the country as well as in the city on the 7th.

Tarte is a bad man and a disloyal. It is true he voted for and supports the British preference and the Colonel himself told the Board of Trade of Victoria that he was one of the most efficient ministers and the most obliging in the Cabinet, but he is too loyal, and, miserable Frenchman though he be, he puts the Colonel to shame. All he has failed; let us vilify Tarte.

At the recent meeting of the Western Teachers' Association, held at Brandon, Man., it was resolved, "That the authorities be asked to pass an act whereby every school board shall be required to pay out of the regular school grant at least \$10 per room for the establishing of a school library." Might not British Columbia follow suit?

Remember this fact on Nov. 7th: **EARLE and PRIOR VOTED AGAINST THE YUKON RAILWAY.**

The Colonel has picked up a notable convert. His logic has been too much for the brain of poor Mr. Stephenson, the ex-school teacher, and he has joined the valiant Conservative champion who waves the Old Flag in one hand and a buffet poor, helpless John Bull with the other.

Massey, Gurney, Rathbun, and in fact all the great Canadian manufacturers, are now supporting the government. What chance has Tupper anyway?

**SHOULD NOT THROW STONES.**

Mr. Stephenson is hardly the man to preach on Disloyalty—But His Utterances Count For Little.

There was consternation in the ranks of the Liberal party this morning. Deep gloom hung about the committee headquarters, and even on the usually placid features of George Riley there appeared a look of concern. Some of the committee men thought seriously of giving up the fight, and all felt more or less alarmed.

J. Stephenson had returned from Paris to vote against the government. Finally, some one wanted to know who J. Stephenson was, and a man who entered the room just then, enlightened them. He said:

"Until a few months ago Mr. Stephenson was a teacher in the city schools. Nice man to talk of disloyalty, he is. I could cite many instances in which he himself was disloyal, but I will name you three. On the Queen's Birthday, this year, he refused to plant a tuft out with the other teachers and scholars until he found out that the school board was opposed to any such action. He was disloyal to his Queen. When he was assigned work by his principals, he would either neglect or refuse to perform the work. He was disloyal to his principals. At the time of the meeting of the teachers' institute in Vancouver last spring, when the schools were closed, Mr. Stephenson refused to go until he was met on the street by one of the trustees and informed by him that he was expected to attend. He arrived there in time to witness the closing of the institute. Disloyalty to his teachers."

"Shortly after this the school trustees asked Mr. Stephenson to resign his position, and he grew very angry and threw up his job."

Another sick headache sufferer freed from misery.

Another one who had tried all sorts of medicines and doctor's treatment without deriving much benefit, cured at last by Laxa-Liver Pills.

Here is Mrs. Farough's statement of her case in her own words: "I was troubled with sick headache for over sixteen years. I doctored and took everything I could think of but it did me no good."

"Lately I commenced to use Laxa-Liver Pills and I find they do me more good than any other medicine I have ever taken. They are an excellent pill, and I would say to everyone troubled with sick headache take Laxa-Liver Pills and you will be cured."

Laxa-Liver Pills are undoubtedly the best remedy for Constipation, Sick Headache, Dyspepsia, Biliousness, Colic, Tongue and all diseases of the Stomach, Liver and Bowels. Price 25c, at all druggists.

**ALYRD REARRESTED.**

(Associated Press.) New York, Nov. 2.—Magistrate Flamm to-day discharged from custody Cornelius L. Alyrd, the defaulting teller of the I.R.T. National Bank. The magistrate said he was satisfied that he had no jurisdiction in the case.

Alyrd was allowed to leave the court room, but as soon as he reached the corridor he was re-arrested by a United States marshal and taken before United States Commissioner Shields.

United States Commissioner Shields held Alyrd in \$150,000 bail for examination on Wednesday next. Bail was not offered and Alyrd was taken to Ludlow street jail.

—On account of the preparations for

the annual hospital ball to take place

next week, the work committee of the

Women's Auxiliary, Royal Jubilee hos-

pital, will not hold meeting until Fri-

day, November 10th.

—The meeting to be held in Victoria

theatre to-morrow evening, at which Mr.

Rodwell will go into all details regarding

the proposed ferry, promises to be well

attended. The boxes will be reserved

for ladies, and gentlemen accompanying

them.

—A special general meeting of the

shareholders of the Georgia Gold Mining

Company, Limited, is called for Decem-

ber 1st in the company's office, 9 Bank

of B. C. chambers, Victoria, to con-

sider the disposal of the assets of the

company.

—Preparations for the hospital ball, to

be held next week, are in progress, and

the Assembly rooms have been thrown

open for decoration. Those interested

in the ball are requested to come for-

ward and aid in making this entertain-

ment a record breaker. Ten ladies have

already volunteered to take charge of

the supper tables, but six more are

needed. All information desired can be

secured by seeing the secretary at the

Assembly rooms on Friday next, and the

days following, between the hours of 10

—The regular meeting of the Feder-

ated Board will be held this evening,

when a number of reports from sub-

committees will be taken up. Hospital

matters will be fully dealt with, and the

results submitted at an early date to the

various lodges. The legislative com-

mittee have completed their labors, and

an appeal will be made to those affected

by obnoxious legislation on the statutes.

Important amendments are suggested by

the committee on laws, and the final ar-

rangements for holding the lectures dur-

ing the winter months will engage the

attention of the board.

—The funeral of C. W. Dyer, whose

death occurred at the Jubilee hospital

the other day, took place yesterday after-

noon from the parlors of the B. C. Fun-

eral and Furnishing Co. Rev. Dr. Wil-

son conducted the religious services both

at the parlors and grave. The Free-

morial Order of Eagles, of which the de-

ceased was a member, attended the fun-

eral in a body. F. Leroy and J. M.

Hughes conducted the services for the

Eagles. The following acted as pall-

bearers: Messrs. T. M. Brashaw, C.

H. Westcott, W. J. Patterson, A. Mc-

Gregor, W. J. Elliott and H. Muller.

—Hoyt's "A Stranger in New York,"

was presented by Schubert's Musical

company before a crowded house in the

Victoria last night. The play was given

here before, and as a drawing card de-

pends solely on its fun provoking vir-

tuities. John L. Kearney in the leading

role was full and witty, and a tower of

strength to the company. Of the sup-

porting company John T. Powers tak-

ing the part of J. Collier Down, and

Sam Marion that of Baron Sands cre-

ated much laughter. A number of new

songs were introduced, and the staging

of the play was excellent, the scenery

being all fresh and particularly attrac-

tive.

—Mrs. Fraser, of Esquimalt road, has

had another letter from one of her sons

with Strathcona's Horse, who is in hos-

pital. The regiment, at the time of

writing, was entrapped at Devil's Kan-

tor, on the Crocodile river. Since his

last letter the horse had captured a

long Tom, the first gun of that particu-

lar style to be captured. The hospital

commander had been in the trenches the

previous day, had stopped a short time,

and had stated that the seventh division

hospital was the best conducted in the

field. He adds that in about a fortnight

he expects to be well enough to be taken

to Paterminster, where he will remain

until well enough to come home. They

were all expecting to go home in

November. A heavy wind was blowing

at the time of writing, and the tents

were filled with dust, but the country

was beginning to look beautifully green.

## Provincial News.

### PERNIE.

About 11.30 on Thursday, October 25th, a man named John Lee was struck by engine 142, and instantly killed. Coroner Trice, inquesting a jury and had an inquiry into the lamentable affair. The jury returned a verdict to the effect that John Lee came to his death by being struck by engine 142, and that no blame could be attached to anyone. The deceased was about 25 years of age.

### NANAIMO.

Andrew Bryden, manager of the Extension mines, denies every statement made by Archibald Nichol, and says the Scotch miners were never told their wages would be reduced under \$3 a day. Many of them are working where \$4 and \$5 a day can be made, and a large party who saw him yesterday before coming to Nanaimo asked him to give a flat denial to Nichol's statement. The men are quite satisfied and confident that when they become acquainted with the style of working here they will make big money.

### NELSON.

A bad wreck occurred on Monday morning on the Crow's Nest road. The extra freight west-bound ran into a big rock slide four miles east of Creston at a point where the embankment is 100 feet high. When the engine struck the slide she left the track and plunged down hill, taking three cars along. The cars were reduced to matchwood and the engine was badly wrecked. Engineer Hugh Brock was seriously cut about the head and his fireman had a narrow escape.

On Saturday evening last Colin English, of the C. P. R. train service, and Mrs. Elizabeth Hodson were quietly married in the presence of a few friends.

### GRAND FORKS.

W. F. Robertson, provincial mineralogist, has arrived here on a tour of the Boundary district. Yesterday he inspected the Grand Forks. Last Sunday an interesting ceremony occurred at the Catholic church here, the occasion being a farewell to Father Palmer, who leaves to take charge of the Main Avenue Catholic church in Spokane. Members of his congregation assembled and presented the reverend gentleman with a substantial purse and an address, bespeaking the heartfelt regrets of all for Father Palmer's leaving and their best wishes for his future. Father Palmer recommended feelingly to the address. He devoted the purse to the debt on the local church and took the same action at Greenwood, B. C., where he was presented with a purse by his congregation.

### NEW WESTMINSTER.

Some forty-three cases have come before the city police court during the past month, made up of the following: Brawl cases, 2; vagrancy, 5; Indians in a state of intoxication, 7; supplying liquor to Indians, 5; Indians having liquor in their possession, 3; common drinks, 5; vagrancy, 5; assault, 5; keeping brothels or being inmates thereof, 6; stealing, 2; having stolen goods in possession, 1. Of these about 34 resulted in conviction, the remainder having been dismissed or let go under suspended sentence, generally with instructions to leave town. Fines were the usual punishment, some \$35 in all having been ordered to be paid in these mulctures. As this, however, full \$200 was not paid in each, the prisoners in several instances having gone to gaol rather than pay up. Amongst the whole lot, it is noticeable that white persons form but a small percentage.

## The Torture of ECZEMA Prevented Sleep.

Mr. Paul Lavigne, Meadowville Station, Pictou Co., N. S., writes as follows: "I shall always praise Burdock Blood Bitters as the best remedy for skin diseases. I had been suffering from Salt Rheum or Eczema for the past five years and could not get any rest from the terrible burning and itching, which was worse at night and prevented me sleeping."

"Hearing of B. B. B. I thought I would try it, and after using one bottle I was so much relieved that I continued using it, taking six bottles in all, and am now completely cured."

It is a blessing that there is such a reliable remedy as B. B. B. for those tortured day and night with terrible skin diseases, and who can get no relief from their misery.

APPLY IT EXTERNALLY and it takes out the fire and itch and aids in the healing process.

TAKE IT INTERNALLY and it purifies the blood of all those poisons which are the source of skin eruptions.

### "THE MAN FROM MEXICO."

Plenty of Fun, Promised for Monday Night.

A treat is in store for the patrons of the Victoria theatre on Monday night, when Broadhurst Bros. production of "The Man from Mexico," appears. George C. Boniface, jr., who made fame for himself in the character of "Jones," will appear as "Fletcher," "The Man from Mexico," and recently a prominent writer on stage and had this to say of Mr. Boniface: "I have never seen an audience laugh louder and heartier than the one at the... laughed last night. During the prison act, where every line is a point and every point a swell, in the crescendo, the laughter became a part of the play, holding back its action in regard to actual time, and by so doing quickening its excitement, emphasizing its drollery, and intensifying its comic nervousness. The acting devolves upon Mr. Boniface, who acquires himself as the centre of everything without a struggle on his part or a regret on yours. His humor is deft, spontaneous and always companionable."

"The following well known players take part in the fun making: Gas Pixley, F. W. Bernard, M. L. Heckert, Robert Deason, J. Trew Gray, Arthur Villars, D. H. Landon, D. W. Siegrist, Helen Baird, Agnes Burke, Adeline Hann and Mildred Keith."

## 3 TRYING TIMES In a Woman's Life.

There are three periods in a woman's life when she is especially in need of the heart-strengthening, nerve-toning, blood-enriching action of Milburn's Heart and Nerve Pills.

The first of these is when the young girl is entering the portals of womanhood. Very often at this time she is pale, weak and nervous, and unless her health is built up and her system strengthened she may fall a prey to consumption, or be a weak woman for life.

The next period a woman needs Milburn's Heart and Nerve Pills is motherhood. The drugging of the system is great and the exhausted nerve force and depleted blood, requires replenishing. These pills supply the system with the very elements needed to make rich red blood and create new nerve tissue.

The change of life is the third period in a woman's life when she is most liable to heart and nerve troubles. Often there is nervousness, hysteria and melancholia; palpitation, dizziness, feeling of "pins and needles," hot flashes and general weakness. Every woman approaching this critical period should fortify her system by the use of Milburn's Heart and Nerve Pills and thus safely tide over an epoch in her life fraught with so much danger to her health.

### YUKON IMPROVEMENTS.

Government Engineer Speaks on What Has Been Accomplished—Navigation Still Open.

J. C. Tache, engineer in charge of the public works in the Yukon district, has arrived at Skagway, and in an interview with the News said: "The work of my department is nearly completed. In fact it is all finished with the exception of the jetty at Lake Labarge, which is being put in to direct the water through one channel and thereby deepening it. There is little doubt of the success of the venture. Our work in the vicinity of Dawson has been chiefly building of bridges. Fifteen miles of good roads were built on Gold Run; five miles of road have been built on Eldorado and the old highway repaired, and four miles built on Bonanza. The road along the Klondike river, which was delayed by the flight of the contractor, John Naezmeister, is now nearly completed, his bodemen completing the work. That, however, was not under my jurisdiction. A fine steel bridge is to be built across the Klondike at the ferry. Other work is in contemplation for next season and some during the present winter, including aids to navigation, roads, bridges, etc."

Indication is that the river will not close in front of Dawson City until November 1st, and probably not till ten days later will ice form along the upper river, says a northern paper of recent date. The tributaries of the Yukon, which usually herald the closing of the waterway by the amount of floating ice they throw, are showing favorable signs of a late season this year. The Klondike river as yet has shown no ice. The Pelly, always the first to bring down ice, is throwing but little, as are also the White and Stewart rivers. The Hootalinqua and both Salmons are as clear as in summer. Nor has a great amount of shore ice formed along the river. The first of November, however, is but eleven days hence, and granting that the ice lying does not step in before that time, the belated snow men have but barely time to reach their destination. The water in the river is very low. Hell Gate is covered with but 28 inches of water. The bottom of Rink rapids is also very near the top, and Minto crossing and another point ten miles above are likewise terror to the belated navigators. Thirteen-mile river, however, is still in good condition.

## Bluejacket Wounded

A Sailor From H. M. S. Icarus  
Draws a Revolver on Special  
Officer Johnson.

Lively Scene at the Victoria  
Theatre That Was Not  
Down on the Bills.

Lying at the naval hospital is James Harding, a bluejacket from H. M. S. Icarus, suffering from a wound in the abdomen, that may prove fatal, while his companion, Thomas Routley, lies in a cell in the city jail charged with causing a disturbance and the prospect of being called upon to face a more serious accusation.

There was an exciting time in the lobby of the Victoria theatre last evening. The lobby was crowded, when two bluejackets walked up to the box office and asked for seats. They had been drinking heavily, Manager Jamieson saw that they were in an ugly mood, and he instructed the ticket seller to refuse them admission. At the same time he sent up stairs for Special Constable Johnson, and the latter promptly appeared upon the scene.

By that time there were about twenty bluejackets in the lobby, and Harding, the larger of the two unruly members of Her Majesty's force, was getting very ugly. Constable Johnson approached him and tried to persuade him to leave the theatre, and for answer the bluejacket drew a formidable looking revolver from his pocket, and pointed it at Johnson's head requested him, in language more forcible than polite, to sell him a ticket. Mr. Johnson assured the angry sailor that he was not the ticket seller, and watching his chance he grabbed the pistol and pointed it downward. The bluejacket then transferred the weapon to his free hand, and again it was turned down by the constable. During the scuffle that ensued the revolver was discharged, and Harding said that he was shot. Constable Johnson thought it was wise to get free, and he held on to him.

In the meantime Routley was also struggling to obtain possession of the weapon, and on the promise that he would not shoot, Constable Johnson let it pass into his hands, and the sailor put it in his pocket.

Other employees of the theatre had not been idle. Manager Jamieson went into the Diarr and telephoned to police headquarters for assistance. It was decided to let the men go up stairs and await the arrival of the police and the patrol. Shortly after they went up Constable Johnson also went into the gallery and found Harding there. He said to the officer that he was growing weak and that he wanted to get out. On the way down stairs he told Constable Johnson that he had been shot. He opened up his clothes and disclosed a large clot of blood in the vicinity of the groin. Harding again grew ugly, and threatened to shoot the officer, who kept a close watch upon him, thinking perhaps that he might have another pistol on his person. He finally got him down stairs, and Officer Carlow, who was at the theatre in plain clothes, came to his assistance. Mr. Carlow had his handcuffs with him, and they were slipped upon the wrists of the offender, and he was left in charge of Constable Johnson to wait for the patrol. A half minute later Harding had slipped the handcuffs from his wrists. Twice more was he handcuffed, and twice more he made an attempt to slip them off, the first time failing to hold. Finally, with the assistance of Constable Leavelly and others, the man was secured and ultimately landed in the police station, as was his companion, who had the pistol in his possession.

After an examination of the wound which Harding had inflicted on himself, Dr. Fraser ordered that the man be sent to the naval hospital and Routley was booked up. The latter appeared in court this morning and was remanded until tomorrow. Should Harding recover he will have a serious charge to face.

The pistol with which the shooting was done was found to be one that was stolen from the police barracks some time ago. Two pistols were not in their accustomed places when they were looked for one day, and it was thought that they had been stolen by trustees. The trustees at that time were closely watched and searched when they went out, but no trace of the missing weapons could be found. It has been the habit at the police barracks to allow sailors, who were on patrol, the freedom of the barracks and gymnasium, and it is now certain that the pistols were carried off by men in the naval service.

Constable Johnson said to-day that had there been only one or two bluejackets around when the disturbance was caused he would not have been so easy with Harding; but it is not safe to use one of their number, roughly when there is a party of them about. The man who did the shooting is a powerful man.

HAPPENINGS OF A DAY ALONG  
THE WATERFRONT.

### VICTORIA TIDES

By F. Napier Denison.

The zero of the accompanying scale corresponds to the average low water yearly tide, and 18.6 feet above the sill of the Esquimalt dry dock.

A cablegram has been received by James Brown, owner of the bark Alex. McNeil, stating that she had arrived at her destination, Fremantle, West Australia. The bark sailed from Puget Sound 180 days ago with a cargo of lumber, and was long ago posted as overdue, 90 per cent. reinsurance being quoted upon her. The cablegram to the owner stated that the deckload of lumber carried by the McNeil had been thrown overboard and that the rudder had been lost, which indicates that the bark had been in severe stress on account of bad weather. No further details of her unusually long passage are, however, at present obtainable. Another overdue vessel, the French bark Bretagne, has been wrecked. Word has been received that the British ship Maxwell had arrived on October 28th with the crew of the Bretagne, who had been picked up by the Maxwell on August 16th, after they had been compelled to abandon the Bretagne on account of the loss of her rudder and all the sails. This happened off Cape Horn, where the bark labored long and hopelessly against gales and tremendous seas. The Bretagne was a steel vessel, only two years old, and was built in France. At the time she was abandoned the vessel was bound from San Francisco with a general cargo.

An arrival from the Orient last evening was the N. P. steamer Queen Adelaide, 21 days from Yokohama, which brought a large general cargo but no saloon passengers and a very small number of Asiatics. Details of the collision between the N. Y. K. steamer Ise Maru from Kobe and the Norwegian steamer Calanda in Nagasaki harbor are brought by the Queen Adelaide. The disaster resulted in the loss of 33 persons, 19 of whom were foreigners. Capt. Yada, of the Ise Maru, says: "From port to starboard the Calanda came across the bows of the Ise Maru, the vessels colliding. The engines of the Ise Maru were at once stopped and orders were given for the boats to be lowered. All the crew, with the exception of two or three, assisted in lowering the boats. I immediately ordered all hands to proceed to the Calanda's assistance. The strong tide had carried the Calanda away, and from the bridge we could see nothing of her. All the officers, except the chief officer, were in charge of the boats, and the passengers and crew. The boats made several journeys from the steamer to the neighborhood of the sunken vessel." The Queen Adelaide also brings news of a fire on board the P. O. steamer Rohilla, destroying cargo to the value of \$30,000.

No news connecting the American ship Wachusett was received from Honolulu this morning by the arrival of R. M. S. Ararat. The Wachusett is now out 171 days from Newcastle, N. S. W. for Kahului. 90 per cent. reinsurance is offered upon her. W. E. Mitchell, her principal owner, has not, however, entirely despaired of the ship's arrival at the islands. Unless fire has overtaken her, he thinks she may yet be heard from.

The British steamer Indra was wrecked on the September 4th, states a wire on the Bombay marine department from the resident at Aden, about 28 miles southwest of Guardafui. The officers and crew, 30 in all, took to the boats, two of which have been picked up by the steamer Barbara. A third boat with 2 officers and 38 men has not been found. The R. L. M. S. Minna has been sent out from Bombay to search for it.

Steamer Glenogle sailed yesterday for the Orient with 3,800 tons of cargo, 2,482 tons of which is flour. She received some seventy Asiatic passengers here. H. H. Lloyd, Puget Sound superintendent of the Pacific Coast Company, has resigned and will be succeeded by C. W. Miller.

British ship Machrihanish, Capt. Cain, which is under charter to load salmon on the Fraser for Robt. Ward & Co., of this city, arrived in the Roads yesterday. The vessel comes here from Yokohama.

Steamer Norma Isles is expected here from San Francisco, to receive bunker coal preparatory to landing cargo at Portland.

C. P. R. bulletin reports that the steamer Cambrian passed Cape Race at 1 p.m. yesterday.

C. P. R. bulletin reports that the Lake Ontario passed Same Point at 8 o'clock yesterday morning.

The Amur and Tees did not get away on their northern voyages until this morning.

morning, having been detained by the heavy gale blowing last night. Among the passengers on the Tees are W. B. Skilled, J. Clayton, W. R. Windsor, W. Noble, W. R. Lord, W. J. Rainey, R. J. Brown, and J. L. Dana. Major Garden, of Vancouver, will embark on the steamer at Vancouver.

Tag Lorne arrived from the North yesterday afternoon with the Richard III, in tow, loaded with concentrates for Tacoma from the Treadmill mine. She left the vessel in the Roads, and is now "blowing down." The tug Sea Lion came from the Sound for the tow last night.

The Charmer came around from Esquimalt this morning after being on the dock for a cleaning and painting. As soon as she takes her place on the Vancouver run the Islander will be laid up for similar treatment.

Bark Oakland is at anchor in the upper harbor, waiting to go on the marine railway for general repairs. The vessel came here from Port Townsend in the fore part of the week.

British ship Lynton, with general cargo, consigned to R. P. Rutherford & Co., of this city, left Liverpool for Victoria a week ago yesterday.

Steamer Ishador connected with the Eastern train to-day and left Vancouver at 1:20 o'clock.

Steamer Willapa is due to-day from Cape Scott and way points.

### OFFICIAL RETURNS.

Total Catch of Victoria Sealing Fleet During the Past Year.

Collector Milne is to-day forwarding to Ottawa a statement of the sealing catch during the past year. This places the total number of skins at 35,480, as against 33,346 skins last year, a difference of 134 skins being on the side of this season's figures. These are made up as follows: B. C. Coast, 16,438 skins; Indian catch, 1,341; Copper Island, 208, and Behring sea, 17,513. Thirty-four vessels hunted along the coast, and thirty-six in Behring sea, while in all twenty-six went out last year. Thus it will be seen that although the total is larger, the catch per schooner is smaller this year than last, the reason being directly attributable to the bad weather, for sealing men report that the little fur animal is as plentiful now as ever.

An official detailed statement of the catch has not yet been completed as there is still one schooner to return, she being the Viva, which has been spoken several times on the coast. The data already collected has involved a great deal of work to secure, the Indian catch being in itself a big task.

### YACHTING.

ACQUITTED OF BLAME.

London, Nov. 1.—The Yachting World to-day prints the text of letters from Cornelius Vanderbilt to Capt. Parker, of the former's 70-footer Hainbow, dated October 12th, and from Mr. Vanderbilt to Mr. Herman B. Duryea, dated October 5th, which the Yachting World asserts have not heretofore been published. In the former Mr. Vanderbilt writes: "If Mr. Duryea has not published his answer to my letter of September 29th, it is only fair that you should be informed of the fact that I therein acquitted you of all blame, and stated the extra ballast was put in the Hainbow by my orders, and I wished to assume the responsibility myself."

### RUGBY FOOTBALL.

VICTORIA V. NAVY.

There will be a match at the Caladonia grounds to-morrow afternoon between the Navy and a team from the Victoria Rugby club, captained by Mr. Gillespie. A number of new players will be tried on the team, and on the form displayed will depend their chance of being included in the regular fifteen of the club. No charge will be made for admission, and spectators may depend on seeing a good hard game. Mr. Gillespie's team is as follows: Full back, K. Gillespie; three-quarters, Schofield, Gamble, Rihet, Schweigert; halves, A. Gillespie, Van der Gucht; forwards, H. Gillespie, Johnston, Cope, Fraser, MacLean, Dunsmuir, Pooley and Holmes.

### ASSOCIATION FOOTBALL.

TO-MORROW'S GAMES.

At Beacon Hill to-morrow afternoon, commencing at 2 p.m. sharp, the Columbia football eleven will meet a team picked from "A" Company, R. C. R. in a friendly game of Association football. # Kilmarnock Scotch Whisky.....

This very fine quality of Scotch Whisky is fast growing in favor in British Columbia. It has for many years been the leading whisky all over Europe, and is to be obtained in all the leading hotels, clubs and refreshment places in London and other large cities of Great Britain. It is termed the "Johnnie Walker", which means Walker's famous "Kilmarnock".

The people of British Columbia demand a good Scotch Whisky, which we take pleasure in presenting, and if you will try the "Kilmarnock", you will accept no other. The proprietors of this whisky, Messrs. John Walker & Sons, of Kilmarnock, do not spend money in fancy advertising matter, and attractive labels, bottles, etc., preferring to put the value into the whisky, thus giving the consumer the benefit.

The "Kilmarnock" is always the same in quality. It is to be found in all the clubs, hotels and refreshment places in British Columbia. Take no substitute. If your grocer does not keep it, come to us, and we will take pleasure in directing you to places where it can be obtained, if desired, in small quantities. We have it in case and in wood.
